

Admin Panel Complete Operations Manual

Comprehensive Step-by-Step Training Guide

Standard Operating Procedure for Every Module • Click-by-Click Instructions • Customer Booking & Payment Lifecycles

Document Title:	Nord Velocity Administrative Panel Operating Manual & SOP
Framework / UI:	Django 6.1 Enterprise Admin • Custom Nord Velocity Luxury Dark Dashboard Theme
Target Audience:	Operations Managers, Tour Dispatchers, Booking Concierges, Fleet Supervisors, Content Staff
Modules Covered:	All 22+ Sidebar Modules (Core Operations, Marketing & Content, Platform Settings)
System Core Engines:	Departure Capacity Matrix (Private Car/Micro/Bus), Stripe Webhooks, Offline Pay Later, Aurora Guarantees
Publication Version:	Version 4.0 • Autumn/Winter Operating Season

OPERATIONAL MANDATE & MANUAL STRUCTURE

HOW TO USE THIS MANUAL:

This training manual is structured specifically to provide clear, actionable, numbered steps for every operation in the admin panel. For each administrative module, you will find 6 standardized steps:

- **Step 1: Navigate from Left Sidebar:** Exactly where to click in the left-hand navigation menu.
- **Step 2: View Existing Records:** What is visible on the list table, how to search, sort, and filter.
- **Step 3: Click Add [Item]:** How to launch the creation form.
- **Step 4: Fill Up Details (Field-by-Field Breakdown):** Exact guidance on what each field means and what to enter.
- **Step 5: How to Edit an Existing Record:** How to locate, modify, and save changes safely.
- **Step 6: How to Delete or Deactivate:** Distinction between soft deactivation and hard deletion, and foreign key safeguards.

In addition, **Section 4** contains a complete technical and commercial breakdown of the customer-side booking lifecycle, including Paid Online (Stripe) vs Pay Later (Cash/Wire), real-time seat inventory reservation, date availability, and multi-party van sharing.

SECTION 1: CORE OPERATIONS MODULES

1. Dashboard

Overview & Purpose: High-level command center displaying operational pace, active revenue, upcoming tour departures, and urgent concierge action items.

- Navigate from Left Sidebar:** Look at the top section labeled **CORE OPERATIONS** and click the first item, **Dashboard** (`/admin/`).
- View Existing Records:** You will see 4 KPI metric cards across the top (Total Revenue, Confirmed Bookings, Active Departures, Fleet Status). Below the KPI cards is the *Recent Bookings* live feed displaying customer names, departure dates, and booking status badges.
- Quick Actions:** In the top header bar, use the omni-search bar to instantly locate any booking reference, customer email, or passenger surname across the system.
- Navigation Hub:** Click on any recent booking reference or upcoming departure row to jump directly into its management screen.

2. Bookings

Overview & Purpose: Master commercial ledger for all passenger reservations across Arctic tours and VIP chauffeur transfers.

- Navigate from Left Sidebar:** Under **CORE OPERATIONS**, click **Bookings** (`/admin/bookings/booking/`).
- View Existing Records:** You can see all created bookings in the main table with columns: *Booking Ref* (e.g. `NV-2026-A1B2C3`), *Booking Type* (Tour / Chauffeur), *Channel Source* (Direct / OTA / Manual), *Customer*, *Status* (Confirmed, Pending, Cancelled), *Payment Status* (Paid, Unpaid), and *Total Amount* (€). In the right filter panel, filter by Status, Payment Status, or Date. Use the top search bar to search references or surnames.
- Click Add Booking (Manual Phone / Concierge Booking):** In the top right corner, click the purple button **[+ Manual Booking]** (`/admin/bookings/manual-create/`) or **[+ Add Booking]**.
- Fill Up Details:**
 - **Departure Selection:** Select the scheduled tour and departure slot from the dropdown.
 - **Vehicle Category:** Select *Private Car (4 seats)*, *Micro (12 seats)*, or *Group Bus (54 seats)*.
 - **Guest Quantities:** Enter number of Adults and Children (system validates available seat capacity in real time).
 - **Customer Details:** Search for an existing registered guest or input Full Name, Email, and Mobile Phone.
 - **Payment Method & Status:** Select `STRIPE`, `OFFLINE` (Cash to Chauffeur), or `BANK_TRANSFER`. Select `PAID` or `UNPAID`.
 - **Concierge Notes:** Enter hotel pickup addresses, flight numbers, or dietary requirements (e.g. Vegetarian, Gluten-free).
 - Click **[Create Booking & Reserve Seats]**. The booking is instantly confirmed and seat inventory decremented.
- How to Edit an Existing Booking:** In the Bookings list, click the blue **Booking Reference** link. Update the payment status, hotel pickup notes, or dietary constraints. To mark an unpaid booking as settled, change *Payment Status* from `UNPAID` to `PAID`. Scroll down and click **[Save]**.
- How to Cancel or Delete:**
 - **Safe Cancellation (Recommended):** Open the booking, change *Status* to `CANCELLED`, and click **Save**. The system automatically restores the booked seats back into sellable inventory.
 - **Bulk Cancellation:** In the list view, select the checkboxes next to bookings, choose **'Cancel booking & release capacity'** from the Action dropdown, and click **Run**.
 - **Deletion Warning:** Do NOT use 'Delete selected bookings' on real customer transactions to preserve financial audit history.

3. Departure Calendar

Overview & Purpose: High-capacity visual dispatch monitor with instant zero-reload toggle between Interactive Month Calendar and Table View.

- Navigate from Left Sidebar:** Under **CORE OPERATIONS**, click **Departure Calendar** (`/admin/operations/calendar/`).
- View Departures (Calendar Mode):** A full-width month calendar displays each scheduled departure as an event block showing: *Time*, *Tour Title*, and live vehicle capacity pills (e.g., ■ 4/4, ■ 8/12, ■ 45/54).
- Switch to Table View (Zero Reload):** In the top right header, click **[Table View]**. The screen switches instantly without page refresh to an operational table with real-time text search and status filters.

4. **Inspect & Quick Actions:** Click on any departure event in the calendar (or click **[Operations]** in table view) to open the modal. Review independent vehicle seat breakdowns (Total, Booked, Blocked, Sellable).
5. **How to Edit Status from Calendar:** Inside the popup modal, click **[Open]**, **[Close]**, or **[Block]**. The status updates via background AJAX and refreshes both calendar and table without reloading.
6. **Launch Manual Booking:** Click **[Manual Booking]** inside the modal to immediately open the booking form pre-filled with this departure slot.

4. Tour Departures

Overview & Purpose: Specific calendar time slots when a tour operates. Each departure maintains independent inventory partitioned by vehicle category.

1. **Navigate from Left Sidebar:** Under **CORE OPERATIONS**, click **Tour Departures** (`/admin/tours/departure/`).
2. **View Existing Records:** You can see all created departures in a table showing: *Tour Package*, *Date*, *Start Time*, *Status* (`'OPEN'`, `'SOLD_OUT'`, `'CLOSED'`, `'BLOCKED'`), and *Capacity Breakdown* (Sellable / Total). Filter by status or date on the right.
3. **Click Add Tour Departure:** Click the purple **[+ Add Departure]** button at the top right.
4. **Fill Up Details:**
 - **Tour:** Select the parent Tour Package from the dropdown list (e.g., `*Rovaniemi Arctic Glass Igloo & Aurora*`).
 - **Date & Time:** Enter Departure Date (e.g. `'2026-12-20'`) and Time (e.g. `'19:30:00'`).
 - **Status:** Set to `'OPEN'` (Bookable online) or `'BLOCKED'` (Held for maintenance).
 - **Vehicle Capacities Inline (Bottom of Form):** Rows are pre-populated for `*Private Car*`, `*Micro*`, and `*Group Bus*`. Customize `'Total Capacity'` (e.g., if using a 16-seat van instead of 12) and optionally enter `'Price Override Adult'` or `'Price Override Child'`.
 - Click **[Save]** at the bottom right. The departure is live and bookable.
5. **How to Edit:** Click on the Tour Title in the departures list. Update the date, time, or status. To reserve guide seats, scroll down to the Capacities inline and increase `'Blocked Seats'` by 1 or 2. Click **Save**.
6. **How to Delete:** Select the checkbox next to the departure in the list, select 'Delete selected departures' from the Action dropdown, and click Run. Note: Deletion will be rejected by the database if confirmed customer bookings already exist for this departure.

5. Vehicle Types

Overview & Purpose: Global tour transport categories defining how seat capacity is partitioned across departures (Private Car, Micro, Group Bus).

1. **Navigate from Left Sidebar:** Under **CORE OPERATIONS**, click **Vehicle Types** (`/admin/tours/vehicletype/`).
2. **View Existing Records:** Displays all active vehicle types with columns: *Name*, *Slug*, *Icon*, *Default Capacity*, and *Is Active*.
3. **Click Add Vehicle Type:** Click **[+ Add Vehicle Type]** at the top right.
4. **Fill Up Details:** Enter Name (e.g., `*Super Jeep 4x4*`), Slug (`*super-jeep*`), Icon emoji (`*■*`), Default Capacity (`*6*`), and Sort Order (`*4*`). Check 'Is Active' = True. Click **Save**.
5. **How to Edit:** Click any vehicle type name. Update the name, icon, or default seat count. Click **Save**. (Note: Modifying default capacity applies to newly created departures).
6. **How to Delete / Deactivate:** If departures are already using this vehicle type, uncheck 'Is Active' instead of deleting to preserve database referential integrity.

6. Re-attempts (Aurora)

Overview & Purpose: Manages Nord Velocity's 100% Northern Lights Guarantee policy. When an Aurora tour encounters dense cloud cover with no sightings, staff log re-attempts so guests can re-book on subsequent nights at €0.00.

1. **Navigate from Left Sidebar:** Under **CORE OPERATIONS**, click **Re-attempts (Aurora)** (`/admin/bookings/guaranteedreattempt/`).
2. **View Existing Records:** Displays all guarantee records showing: *Original Booking*, *Guest Name*, *Original Departure*, *Status* (`'ELIGIBLE'`, `'REBOOKED'`, `'DECLINED'`, `'EXPIRED'`), and *Re-attempt Departure*.
3. **Click Add Re-attempt:**
 - **Option A (From Bookings List - Fastest):** In *Bookings*, select the cloudy tour bookings with checkboxes, choose **■ Mark as Failed Experience (Create Guaranteed Re-attempt)** from the Action dropdown, and click **Run**.
 - **Option B (Manual):** Click **[+ Add Guaranteed Re-attempt]** at the top right.
4. **Fill Up Details:** Select Original Booking, Original Departure, enter Guest Count, Reason (`'WEATHER'`), and set Status to `'ELIGIBLE'`. Click **Save**.
5. **How to Rebook Guest on New Date:** Open the Re-attempt record when the customer selects their retry date. In *Re-attempt Departure*, select the new departure slot. Change Status to `'REBOOKED'`. Click **Save**. Seats are automatically reserved on the new departure and an e-ticket voucher with €0 balance is issued to the guest.
6. **How to Delete:** Only delete test entries. For guest records who decline a retry, set Status to `'DECLINED'` or `'EXPIRED'`.

7. Tour Packages

Overview & Purpose: The core product catalog defining Arctic experiences (Glass Igloo Safaris, Snowmobile Adventures, Reindeer Sledding).

1. **Navigate from Left Sidebar:** Under **CORE OPERATIONS**, click **Tour Packages** (`/admin/tours/tour/`).
2. **View Existing Records:** Displays all tour packages with columns: *Title*, *Destination*, *Travel Style*, *Duration*, *Status* (``DRAFT``, ``PUBLISHED``, ``ARCHIVED``), and *Base Price*. Filter by Status, Destination, or Season on the right panel.
3. **Click Add Tour:** Click the purple **[+ Add Tour]** button in the top right corner.
4. **Fill Up Details (Field-by-Field):**
 - **Title:** Full commercial package name (e.g., `*Lapland Northern Lights & Glass Igloo Expedition*`).
 - **Slug:** URL slug (e.g., ``lapland-northern-lights-glass-igloo``). Auto-generated from title.
 - **Destination & Country:** Select Destination (`*Rovaniemi*`) and Country (`*Finland*`).
 - **Short Summary:** 1-2 sentence card preview text (max 200 characters) displayed on search grids.
 - **Overview:** Full rich text description detailing the experience, arctic landscapes, and highlights.
 - **Duration Text:** User-friendly duration string (e.g. `*3 Days / 2 Nights*` or `*4 Hours*`).
 - **Badge Text:** Marketing ribbon (e.g. `*Best Seller*`, `*15% Off*`, `*Aurora Guaranteed*`).
 - **Category Checkboxes:** Check ``Group Tour``, ``Private Tour``, and/or ``Family Tour`` to control homepage filter tabs.
 - **Aurora Guarantee:** Check ``Has Guaranteed Reattempt`` = True if Northern Lights retry policy applies.
 - **Media Inline (Bottom of Page):** Upload photos (16:9 ratio recommended). Check ``Is Hero`` on the primary cover photo.
 - **Option Pricing Inline:** Add pricing rows for `*Private Car*`, `*Micro*`, and `*Group Bus*` with Adult and Child prices.
 - **Inclusions Inline:** Add items with text (e.g. `*Thermal Snowsuit & Boots*`, `*Hot Berry Juice*`); set ``Is Included`` to True or False.
 - **Status:** Set to ``PUBLISHED`` to go live immediately on the public website, or ``DRAFT`` to keep hidden.
 - Click **[Save]** at the bottom right.
5. **How to Edit:** Click on any tour title link in the list. Edit text, adjust prices in the pricing inline, upload new gallery photos, or toggle badges. Click **Save**.
6. **How to Delete or Archive:**
 - *Safe Archiving:* Open the tour, change Status from ``PUBLISHED`` to ``ARCHIVED``, and click **Save**. The tour is removed from the public website while all past booking manifests remain intact.
 - *Hard Deletion:* Select checkbox in list, choose 'Delete selected tours' from Action dropdown, click Run. (Blocked if departures or bookings exist).

8. Countries, 9. Tour Places & Cities, 10. Tour Categories

8. Countries (`/admin/tours/country/`):

1. Click **Countries** in sidebar.
2. View existing Nordic nations (Finland, Norway, Sweden, Denmark, Iceland).
3. Click **[+ Add Country]**. Enter Name (e.g. `*Norway*`), Slug (`*norway*`), Region (`*Northern Europe*`), upload Flag SVG icon, and check 'Is Active'.
4. Edit: Click country name, update description or flags, click Save.
5. Delete: Check box, select Delete, click Run.

9. Tour Places & Cities (`/admin/tours/destination/`):

1. Click **Tour Places & Cities** in sidebar.
2. View cities (Rovaniemi, Tromsø, Reykjavik, Kiruna, Helsinki).
3. Click **[+ Add Destination]**. Enter Name (`*Tromsø*`), select Country (`*Norway*`), enter Airport Code (`*TOS*`), upload scenic banner, check 'Is Featured in Nav'. Save.
4. Edit/Delete: Click city name to edit coordinates or highlights; delete via action dropdown.

10. Tour Categories (`/admin/tours/experiencetype/`):

1. Click **Tour Categories** in sidebar.
2. View categories (`*Northern Lights*`, `*Winter Safaris*`, `*Cultural*`).
3. Click **[+ Add Experience Type]**. Enter Name, upload circular navigation icon, set sort order, check 'Featured in Nav'. Save.

11. Tour Inventory & Dates (Legacy Matrix)

Overview & Purpose: Manages simplified calendar blocks and bulk capacity overrides for tours operating on fixed calendar blocks.

1. **Navigate from Left Sidebar:** Under **CORE OPERATIONS**, click **Tour Inventory & Dates** (`/admin/tours/tourdate/`).
2. **View Existing Records:** Displays dates with columns: *Tour*, *Start Date*, *End Date*, *Total Capacity*, *Booked Count*, *Available Spots*, and *Status*.
3. **Click Add Tour Date:** Click **[+ Add Tour Date]** at top right.
4. **Fill Up Details:** Select Tour, Start Date, Total Capacity (e.g. `16`), and Status (`AVAILABLE`). Click **Save**.
5. **How to Edit:** Click the tour date link. Adjust total capacity or toggle status to `SOLD\_OUT`. Click **Save**.
6. **How to Delete:** Select checkbox, choose Delete, click Run.

12. Fleet Classes (Luxury Fleet)

Overview & Purpose: Controls luxury chauffeur service classes displayed on the public fleet showcase (`VIP`, `Business Class`, `Minivan`, `Executive Van`, `Coupe`, `First Class VIP`). Each class contains pricing models and vehicle specifications.

1. **Navigate from Left Sidebar:** Under **CORE OPERATIONS**, click **Fleet Classes (Luxury Fleet)** (`/admin/chauffeur/vehicleclass/`).
2. **View Existing Records:** Displays classes with columns: *Name*, *Slug*, *Thumbnail Preview*, *Fleet Count*, and *Is Active*.
3. **Click Add Vehicle Class:** Click **[+ Add Vehicle Class]** in the top right corner.
4. **Fill Up Details:**
 - **Class Name:** Name of the luxury tier (e.g., `\*First Class VIP\*`).
 - **Slug:** Canonical identifier (e.g., `first-class-vip`). Auto-filled from name.
 - **Capacities:** Max Passengers (*3*), Max Luggage (*2*).
 - **Images:** Upload Vehicle Silhouette SVG/PNG icon and representative photograph.
 - **Pricing Rules Inline (Bottom):** Enter Base Fare (e.g. `95.00`), Per KM Rate (`3.50`), and Minimum Total Fare (`120.00`).
 - **Service Standards Inline:** Add bullet points (e.g. `\*Complimentary WiFi & Spring Water\*`, `\*Flight Delay Monitoring\*`).
 - Check 'Is Active' = True and click **[Save]**.
5. **How to Edit:** Click on any class name. Update base fares, per-km rates, or passenger capacities. Click **Save**. Online quotes update immediately.
6. **How to Delete or Deactivate:** Uncheck 'Is Active' and save. The class immediately hides from the public Chauffeur grid without breaking past transfer invoices.

13. VIP Chauffeur Vehicles

Overview & Purpose: The physical fleet of chauffeur vehicles (e.g. Mercedes-Benz EQE Electric, Mercedes S-Class 580e, Mercedes V-Class VIP).

1. **Navigate from Left Sidebar:** Under **CORE OPERATIONS**, click **VIP Chauffeur Vehicles** (`/admin/chauffeur/vehicle/`).
2. **View Existing Records:** Displays all fleet vehicles with columns: *Vehicle Name*, *Photo*, *Vehicle Class*, *License Plate*, *Passengers*, *Luggage*, and *Is Active*.
3. **Click Add Vehicle:** Click **[+ Add Vehicle]** at top right.
4. **Fill Up Details:** Enter Name (e.g. `\*Mercedes-Benz S-Class 580e\*`), select Vehicle Class (*First Class VIP*), enter License Plate (*NORD-007*), Max Passengers (*3*), Luggage (*3*). In the *Vehicle Photos Inline*, upload high-res photos and check `Is Primary` on the best photo. Check 'Is Active' = True. Click **[Save]**.
5. **How to Edit:** Click vehicle name. Update photos, assign to a different class, or log maintenance notes. Click **Save**.
6. **How to Delete / Decommission:** Uncheck 'Is Active' and click Save. The vehicle is removed from active booking assignment.

14. Fixed Airport Routes & 15. Guests & Users

14. Fixed Airport Routes (`/admin/chauffeur/fixedroute/`):

1. Click **Fixed Airport Routes** in sidebar.
2. View configured fixed airport transfers.
3. Click **[+ Add Fixed Route]**. Enter Origin (e.g. `\*Helsinki-Vantaa Airport [HEL]\*`), Destination (*Helsinki City Center*), select Vehicle Class (*Business Class*), and enter Flat Fare (e.g. `95.00`). Click **Save**. Overrides per-km rate with a guaranteed flat price.

15. Guests & Users (`/admin/accounts/customuser/`):

1. Click **Guests & Users** in sidebar.
2. View registered travelers, concierges, and admin staff.
3. Click **[+ Add User]** to create staff accounts (check 'Staff Status' to allow admin panel login).
4. Inspect Guest Details: Click on a customer email to review their booked trips, passport records, and customer profile.

SECTION 2: MARKETING & CONTENT MODULES

16. Features & Value Props

URL: /admin/core/valueproposition/ • *Homepage trust badges ('Certified Arctic Chauffeurs', 'Guaranteed Aurora Sightings', 'Luxury Fleet').*

1. Click **Features & Value Props** under MARKETING & CONTENT.
2. View existing value propositions in the list.
3. Click **[+ Add Value Proposition]**.
4. Enter Title (*Certified Arctic Drivers*), Subtitle (*Winter skid & ice certified*), Phosphor icon class (*ph-shield-check*), and Sort Order (*1*).
5. How to Edit: Click title link, update wording or icon, click Save.
6. How to Delete: Select checkbox, choose Delete, click Run.

17. Discounts & Offers

URL: /admin/core/homeoffercard/ • *Homepage promotional banner cards ('Winter Special - Up to 30% Off Arctic Tours').*

1. Click **Discounts & Offers** in sidebar.
2. View active promotional banners.
3. Click **[+ Add Home Offer Card]**.
4. Enter Badge (*Limited Winter Offer*), Title (*Save 25% on Glass Igloo Packages*), Description, Button text (*Explore Packages*), Target URL (*/tours/*), and upload 16:9 Background Image. Check 'Is Active'. Save.
5. How to Edit: Click banner title, update dates or discount text, click Save.
6. How to Delete: Uncheck 'Is Active' to hide from homepage.

18. Partner Logos

URL: /admin/core/partnerlogo/ • *Corporate partners, luxury hotel chains, airlines, and regional tourism boards.*

1. Click **Partner Logos** in sidebar.
2. View partner logo carousel items.
3. Click **[+ Add Partner Logo]**.
4. Enter Partner Name (e.g. *Visit Finland*), upload transparent PNG logo, enter Website URL, and check 'Is Active'. Save.
5. How to Edit/Delete: Click partner name to replace logo; delete via action dropdown.

19. Promo Coupons

URL: /admin/payments/coupon/ • *Checkout promotional discount codes (percentage or fixed cash discount).*

1. Click **Promo Coupons** in sidebar.
2. View coupons with columns: Code, Discount Type, Discount Value, Max Uses, Used Count, and Active status.
3. Click **[+ Add Coupon]**.
4. Enter Coupon Code (e.g. `AURORA2026`), Discount Type (`PERCENTAGE` or `FIXED`), Value (`15.00` for 15%), Valid From and Valid To dates, and Max Total Uses (`100`). Check 'Is Active'. Click Save.
5. How to Edit: Click code, adjust validity date or discount value, click Save.
6. How to Delete: Deactivate coupon by unchecking 'Is Active'.

20. Reviews & Ratings

URL: /admin/tours/tourreview/ • *Customer testimonials, ratings (1 to 5 stars), and moderation approval queue.*

1. Click **Reviews & Ratings** in sidebar.
2. View submitted reviews. Unapproved reviews have `Is Approved = False`.
3. Moderation & Approval: Click on a review, verify the comment text, and check the checkbox **Is Approved = True**.
4. Click **Save**. The review appears publicly on the tour page and updates the average star rating.

5. How to Delete: Select spam or abusive reviews, choose 'Delete selected reviews' from Action dropdown, click Run.

21. Blog & Stories

URL: /admin/content/blogpost/ • *Arctic travel guides, aurora photography tips, and destination articles.*

1. Click **Blog & Stories** in sidebar.
2. View all blog posts with Author, Published Date, and Status.
3. Click **[+ Add Blog Post]**.
4. Enter Title (***How to Photograph the Northern Lights in Rovaniemi***), Slug, Rich Text Body, Author, upload Featured Banner Image, and set Status to ``PUBLISHED``.
5. Enter SEO Meta Title and Meta Description for Google search ranking. Click Save.
6. How to Edit/Delete: Click title to revise content; set Status to Draft to unpublish.

22. Inquiries & Leads

URL: /admin/core/contactsubmission/ • *Inquiries and custom concierge requests submitted through the ``/contact`` form.*

1. Click **Inquiries & Leads** in sidebar.
2. View incoming leads with Name, Email, Phone, Subject, and Status (``NEW``, ``CONTACTED``, ``CONVERTED``, ``CLOSED``).
3. Click on any inquiry row to read the full guest message.
4. In *Status*, change from ``NEW`` to ``CONTACTED``. In *Admin Notes*, record staff follow-up actions.
5. Click **Save**.

SECTION 3: PLATFORM CONFIGURATION MODULES

23. Site Settings (Mission, Stats & Brand Assets)

URL: /admin/core/sitesetting/1/change/ • *Global branding logos, emergency concierge phone, live statistics counters, and company legal info.*

1. In the sidebar under PLATFORM SETTINGS, click **Site Settings (Mission & Stats)**.
2. View global settings record.
3. **Brand & Identity:** Update Site Name ('Nord Velocity'), upload Desktop Logo, Dark Admin Logo, and Browser Favicon.
4. **Statistics Counters:** Update numbers shown on homepage: Completed Tours ('26K+'), Experience Years ('5'), Happy Travelers ('15,000+'), Satisfaction Rate ('98%').
5. **Concierge Contact:** Update 24/7 Telephone, Email, and Physical Office Address in Helsinki.
6. Click **[Save]**. Changes immediately apply across all public pages and headers.

24. Navigation Icons (Navbar Items)

URL: /admin/core/navbaritem/ • *Top header navigation bar links (Home, Destinations, Tours, Chauffeur, Contact).*

1. Click **Navigation Icons** in sidebar.
2. View navbar links and their sort orders.
3. Click on any item to change title, target URL, or Phosphor icon class. Click Save.

25. Mega Menu Promos & Company Menu Items

URL: /admin/core/megamenupromo/ & /companymenuitem/ • *Visual promotional cards displayed inside the dropdown Mega Menus.*

1. Click **Mega Menu Promos** in sidebar. Click [+ Add Mega Menu Promo].
2. Select parent dropdown (Destinations or Tours), enter Headline ('Winter Special 30% Off'), upload image, and link to package. Save.
3. Click **Company Menu Items** to add footer links (About, Terms, Privacy Policy, Press).

26. FAQs & Testimonials

URL: /admin/core/faqitem/ & /testimonial/ • *Frequently asked questions and verified passenger testimonials.*

1. Click **FAQs** in sidebar → [+ Add FAQ Item]. Select Category (Booking, Chauffeur, Aurora Guarantee), enter Question and detailed Answer. Check 'Is Published' and click Save.
2. Click **Testimonials** in sidebar → [+ Add Testimonial]. Enter Guest Name, Country, Quote, 5-Star Rating, and upload avatar. Save.

SECTION 4: CLIENT-SIDE BOOKING LIFECYCLE & INVENTORY LOGIC

4.1 The Complete Customer Booking Journey (Front-to-Back Flow)

When a prospective traveler books an Arctic experience on the Nord Velocity public website, the system executes an automated, multi-step state transition. Here is exactly what happens from customer click to administrative fulfillment:

Step 1: Date & Experience Selection

The customer browses to `/tours/` and selects a tour package (e.g. `*Lapland Aurora Hunt*`). The public booking widget queries all Departure records for this tour. It evaluates every date: if at least one vehicle category has sellable seats, the date is highlighted as available in the calendar. If all vehicle categories have zero sellable seats, the date is marked **'Sold Out'** and disabled.

Step 2: Vehicle Category & Seat Selection

The customer selects their desired transport category: **Private Car (4 seats)**, **Micro (12 seats)**, or **Group Bus (54 seats)**. The customer inputs guest counts (e.g., 2 Adults, 1 Child). The frontend performs a live AJAX check against `DepartureCapacity.public_sellable`. If the requested seats exceed availability, an instant notification prompts them to select another vehicle or date.

Step 3: Passenger Manifest Details

The customer enters Lead Guest contact details (Name, Email, Mobile Phone) and individual guest details (Full Names, Child/Adult types, special dietary constraints, and hotel pickup location). If the customer does not have an account, the system automatically provisions a guest profile.

Step 4: Atomic Capacity Reservation (15-Minute Lock)

Upon clicking `'Proceed to Checkout'`, Django executes an atomic database transaction using `select_for_update()` on the target `DepartureCapacity` record. It creates a Booking with status `HELD` and increments `booked_count` immediately. This guarantees that no other traveler on the internet can claim those seats while this customer enters payment details.

4.2 Payment Scenarios: Paid Online (Stripe) vs Pay Later (Cash / Wire)

Nord Velocity accommodates both international cardholders and VIP corporate travelers who prefer deferred or on-arrival payment. Here is the precise system behavior and administrative protocol for each scenario:

Attribute / Event	Scenario A: Paid Online (Stripe / Card)	Scenario B: Pay Later (Cash / Bank Wire)
Customer Action	Enters credit/debit card on secure Stripe Checkout page.	Selects 'Pay on Arrival / Cash to Driver' or 'Bank Wire Transfer'.
System State	Status = CONFIRMED Payment Status = PAID	Status = CONFIRMED (Seat Held) Payment Status = UNPAID
Seat Inventory Impact	Seats permanently decremented from sellable capacity.	Seats permanently decremented so customer does NOT lose their spot.
Automated Notifications	Instant payment receipt & e-ticket confirmation voucher dispatched.	Confirmation email dispatched with Bank Wire Details (IBAN/BIC) or Cash Instructions.
Admin Panel Visibility	Appears in Bookings list with green PAID badge. No staff intervention required.	Appears in Bookings list with warning badge: UNPAID / Pending Collection .
Administrative Protocol	Verified and finalized. Assign chauffeur and print passenger manifest.	1. Filter Bookings by <i>Payment: Unpaid</i> . 2. When funds arrive in bank or cash collected by chauffeur: open Booking, change <i>Payment Status</i> to PAID , log reference in notes, click Save .

4.3 Real-World Seat Capacity Progression (12-Seat Micro Van Scenario)

To understand how shared vehicles operate without overbooking, follow this exact progression for a 12-seat Micro van departure:

Progression	Booking Party	Party Size	Remaining Capacity	System Behavior & Operational Directives
Departure Created	Initial Inventory	—	12 of 12 Seats	Departure Status = OPEN. System displays 12 sellable seats online.

Progression	Booking Party	Party Size	Remaining Capacity	System Behavior & Operational Directives
Booking #1	Family A	4 Guests	8 Seats Left	Database increments booked_count to 4. 8 seats remain open for public booking.
Booking #2	Group B	5 Guests	3 Seats Left	Database increments booked_count to 9. 3 seats remain. Urgency badge triggers online.
Booking #3	Couple C	2 Guests	1 Seat Left	Database increments booked_count to 11. Exactly 1 seat remains open.
Scenario 4A	Solo Traveler D	1 Guest	0 Seats (SOLD OUT)	Single traveler books the last seat. Status switches to SOLD_OUT. Date disables.
Scenario 4B	No Solo Traveler	0 Guests	1 Seat Unfilled	Manager Directive: If 1 seat remains unfilled at 24h cutoff, the tour dispatches safely with 11 passengers. The empty seat remains unoccupied.
Blocked Attempt	Party E (2 guests)	2 Guests	1 Seat Left	TRANSACTION REJECTED: Booking engine blocks Party E because 2 > 1. System displays: 'Only 1 seat remaining. Please choose another departure.'

4.4 Cancellations, Date Availability & Automatic Capacity Restoration

- What happens when a booking is cancelled?
- Status Transition:** When an administrator changes a booking's status to CANCELLED or REFUNDED, the BookingService.transition_status() method executes an atomic release operation.
 - Seat Restitution:** The system automatically decrements DepartureCapacity.booked_count by the cancelled guest count. The formula public_sellable = total_capacity - booked_count - blocked_seats immediately increases.
 - Automatic Date Re-opening:** If the departure date was previously displayed as 'Sold Out' on the public website, it automatically flips back to 'Available' instantly. New customers can immediately reserve the newly liberated seats without any manual developer intervention.
 - Audit Trail:** Every status transition generates an immutable entry in BookingStatusLog recording the timestamp, previous state, new state, user ID, and cancellation reason.

EXECUTIVE OPERATIONAL CHECKLIST

MASTER RULES FOR OPERATIONAL COMPLIANCE:

- Rule 1: Never Hard Delete Active Records:** Always use Status = CANCELLED or ARCHIVED. Hard deletion breaks financial reports and invoice references.
- Rule 2: Daily Unpaid Audit at 09:00:** Review all bookings where Payment Status is UNPAID. Reconcile overnight wire transfers and confirm cash pickups with dispatch.
- Rule 3: Aurora Guarantee Logging by 23:30:** If overcast skies prevent Aurora sightings, log the failed experience before midnight so guests wake up with free re-booking invitations in their email inbox.
